ABOUT ME (?TABSE...   ABOUT REVOLENT (...

A 3x Salesforce and 2x Copado professional with a background in Web Design and Digital Print where he predominantly used HTML, CSS & JavaScript. He first encountered Salesforce while working as a Junior Software Tester where he worked alongside Developers to bug reports & diagnostics to ensure the websites functionalities ran smoothly. Alan most recently worked on a Revols for Good Non-Profit project where he has been working with custom objects and fields, web-to-lead functionality, DevOps and supporting documentation to help plan/track the project. Alongside this he has been working on self-development on small individual projects such as producing Processes, Flows and Lightning Web Component. Alan is now looking to support further organisations within the Salesforce ecosystem.

Experience
